CODE OF CONDUCT

Introduction

The Code of Conduct (“The Code”) is the foundation of the Compliance Program. The Code of Conduct is a guide to appropriate workplace behavior. The Code provides direction for staff to make the right decisions when unsure how to respond to a situation. The Code applies to everyone including all staff, management, board of directors, volunteers, contractors, and vendors. All staff must comply with both the spirit and the letter of all federal, state, and local laws and regulations that apply to the healthcare and other services the organization provides, as well as all laws that apply to business dealings. Violations of these laws and regulations can result in severe penalties for the organization, employees, and the individuals served including financial penalties, exclusion from participation in government programs, and in some cases imprisonment.

As an associate, we share a commitment to legal, ethical, and professional conduct in everything that we do. We support these commitments in our work each day, whether we care for residents, order supplies, prepare meals, keep records, take physician orders, pay invoices, or make decisions about the future of our organization.

The success of Bethany Village as a provider of healthcare and other services depends on you, your personal and professional integrity, your responsibility to act in good faith and your obligation to do the right things for the right reasons.

The Compliance Program provides principles, standards, training, and tools to guide you in meeting your legal, ethical, and professional responsibilities. As an associate, you are responsible for supporting the Compliance Program in every aspect of your workplace behavior. Your performance review includes understanding and adhering to the compliance plan as it applies to your job responsibilities.

This handbook describes our Code of Conduct. It supplements the Employee Handbook and the specific Policies and Procedures that apply to your department and job responsibilities. As a business partner or contracted partner, it provides guidelines and expectations for our continued relationship. The Code of Conduct discusses the importance of

Care Excellence – providing quality, compassionate, respectful, and clinically appropriate care.

Professional Excellence – maintaining ethical standards of healthcare and business practices.

Regulatory Excellence – complying with federal and state laws, regulations and guidelines that govern healthcare, housing services and other services we provide.

A Shared Responsibility

Because we are in the business of caring and providing services for others, it is critical that each of us adheres to appropriate standards of behavior. As individuals and as an organization we are responsible to many different groups. We must act ethically and responsibly in our relations with:

- Residents and their families;
- Colleagues and coworkers;
- Volunteers and affiliated colleagues;
- Healthcare payors, including the federal and state governments;
- Regulators, surveyors, and monitoring agencies;
- Physicians, Nurse Practitioners, Physician Assistants;
- Vendors and suppliers;
- Business associates; and
- The Communities we serve.

Any compromise in our standards could harm our residents, our coworkers, and our organization. Like every organization that provides healthcare, we do business under very strict regulations and close governmental oversight. Fraud and abuse are serious issues. Sometimes even an innocent mistake can have significant consequences that could result in substantial penalties to Bethany Village.

All associates are required to complete training on the Code of Conduct and the Compliance Program as a condition of employment and you must follow the Code to remain employed. The Code sets forth mandatory standards. **There is no justification for departing from the Code of Conduct no matter what the situation may be.** Every staff person is responsible for ensuring that they comply with the Code and all policies and procedures. Any associate who violates any of these standards and/or policies and procedures is subject to discipline up to and including termination of employment.

A Personal Obligation

As we are each responsible for following the Code of Conduct in our daily work, we are also responsible for enforcing it. This means that you have a duty to report any problems you observe or perceive, regardless of your role.

As an associate, you must help ensure that you are doing everything practical to comply with applicable laws. If you observe or suspect a situation that you believe

may be unethical, illegal, unprofessional, or wrong, or you have a clinical, ethical or financial concern, you **must** report it. You are expected to satisfy this duty by complying with the Three-Step Reporting Process and Kansas required reporting obligations.

COMPLIANCE LINE

There is a specific communication process for reporting compliance issues.

The Three Step Reporting Process

First, talk to your supervisor. He or she is most familiar with the laws, regulations and policies that relate to your work.

Second, if you are not able to talk to your supervisor, seek out another member of the management team or someone from human resources.

Third, if you still have a concern, contact the Compliance Liaison or member of the organization's Compliance Committee.

If none of the above steps resolve your questions or concerns, or if you prefer, call the toll-free Compliance Line at 800-211-2713 for assistance. All calls are confidential, and you may call ANONYMOUSLY if you choose.

You may make a report in good faith to the Compliance Line without fear of reprisal, retaliation or punishment for your actions. Anyone, including a supervisor who retaliates against an associate for contacting the Compliance Line or reporting compliance issues in another manner will be disciplined.

The Compliance Line is staffed by an outside agency and is available 24 hours, 7 days a week. Each call is investigated and kept confidential to the highest degree possible.

Care Excellence

Our most important job is providing quality care to our residents. This means offering compassionate support to our resident and working toward the best possible outcomes while following all applicable rules and regulations.

Resident Rights

Residents receiving healthcare and other services have clearly defined rights. To honor these, we must:

- Make no distinction in the admission, transfer, or discharge of a resident, or in the care we provide based on race, gender, age religion, national origin,

- Protect resident's rights to be free from physical and chemical restraints; and
- Respect the residents' right to self-determination and autonomy.

Abuse and Neglect

Bethany Village **will not tolerate** any type of resident abuse or neglect – physical, emotional, verbal, or sexual. Residents must be protected from abuse and neglect from associates, family members, legal guardians, friends, or any other person. This standard applies to all residents, at all times. The state of Kansas defines abuse as the following:

Abuse – the infliction of injury, unreasonable confinement, intimidation or punishment with resulting physical harm or pain or mental anguish, or deprivation by an individual, including a caretaker of goods or services that are necessary to attain or maintain physical, mental and psychosocial well-being. This presumes that instance of abuse of all residents, even those in a coma, cause physical harm, or pain or mental anguish. The term includes the following:

- **Verbal Abuse** - Any use of oral, written, or gestured language that willfully includes disparaging and derogatory terms to clients or their families, or within their hearing distance, regardless of age, ability to comprehend or disability;
- **Sexual Abuse** – includes sexual harassment, sexual coercion, or sexual assault;
- **Physical Abuse** – Includes hitting, slapping, pinching, kicking. The term also includes controlling behavior through corporal punishment or deprivation
- **Mental Abuse** – include humiliation, harassment, threats of punishment or deprivation;

- **Involuntary Seclusion** – Includes separation of a resident from other residents from his or her room or confinement to his or her room against the resident’s will or the will of the resident’s legal representative;
- **Neglect** – The deprivation by a caretaker of goods or service which are necessary to maintain physical or mental health.

Any associate who abuses or neglects a resident is subject to termination. In addition, legal or criminal action may be taken. Abuse and neglect must be reported immediately to your supervisor or other member of management under the mandatory reporting requirements in the state of Kansas.

*DO NOT call the Compliance Line for issues of abuse or neglect.
Report them immediately!*

Associates must never disclose confidential information externally unless expressly directed to do so by legal counsel. Upon termination of employment an associate must promptly return all confidential information to the organization.
