# THE ART OF LIVING

THE COTTAGES • SUNFLOWER TERRACE • BETHANY HOME

At Bethany Village, we believe seniors should be empowered creatively, spiritually, and emotionally to do what they do best. Where others see challenges, we see potential. Where others see loss or decline, we see opportunity and capacity.

Through tapping into the talents of our residents, the rich arts and cultural life in Lindsborg, and inspiration from our Creator, we engage our community of seniors with creative activities, lifelong learning, and intergenerational opportunities—as well as instill a healthy sense of self-fulfillment, value, and friendship. Whether you're a tinkerer, crafter, gardener, musician, quilter, or simply one who appreciates the world of creativity, Bethany Village's "art of living" philosophy helps you make your golden years as healthy and dynamic as possible.

## WE BELIEVE

- People aren't content to simply live longer— we want to age well
- Seniors should be able to take part in their favorite activities
- Creative arts benefit body, mind, and spirit—and offer opportunities for connection with others
- Using our creative gifts helps us live in and share God's love
- Our organization thrives when our staff is encouraged to be imaginative
- Creativity takes skill and practice, especially the art of care
- Creative living should be inclusive of all people, no matter the ability
- Creativity—and the "art of living" philosophy—is built on profound respect for each other

**Supporting you to live your purpose through your own unique creative expression**
